Purpose

In my Purpose Collection, I designed this symbol of determination to persevere, to endure, to triumph over every challenge, and to live life to the fullest.

It is bold! Exquisite! It demands attention—Just as a life with purpose, demands. We determine ourselves by our perseverance, by continually striving toward our deepest desires, by reaching for our loftiest goals.

UNITY PENDANT

Unity

Hands joined, heads inclined; hearts uplifted. The curved, dancing links of this striking contemporary design are inspired by – and dedicated to – women.

Women in unity – in community – have no beginning, no end, and no limit to what they can be and do.

Harmony

Harmony is the inner journey of finding balanced diversity within ourselves, and then sending this vibration into our human community, creating circles of personal purpose.

Living a life of transparency opens our natural harmony. As we all evolve and bring our blessings forward, wholly accepting one another, diversity leads us into the dance of Harmony.

Exclusive Designs

Welcome to my world of DC Cox Exclusives.

I create for you from your own vision, what you cannot. Who you are is unique in all the world and so what expresses you—whether for a statement piece or as a gift—is also unique. Through my DC Cox Exclusives Questionnaire and a series of private design sessions, I walk you easily through the steps of bringing your unique vision into reality.

Trinity

Finding true meaning begins when we share our passion with the world and create unity in our community by sharing with like minded people, helping us to surrender to what matters most. One moment, one day, one person can change the world, why not be the positive change. To me this is what I see as a fluid understanding of life.

Trinity is the union of our personal PURPOSE, UNITY with others and HARMONY creating congruity.
